PRECOR 546i Elliptical Trainer

68"H X 80"L X 32"W

PRODUCT DESCRIPTION **rental price upon inquiry*

This is a Health Club, commercial quality fitness machine that can be used all day long by many different users. This is a self powered machine and no electricity is required. Operates with movement using a large battery and alternator. This does not have moving arms.

PRECOR 546HR V1 Elliptical Trainer

68"H X 80"L X 32"W

PRODUCT DESCRIPTION **rental price upon inquiry*

On the Precor 546, you stride smoothly while holding the handrails or moving your arms in natural sync, with or without hand weights. The exclusive, electronically adjustable Cross Ramp lets you change the slope of the stride with the touch of a key to vary muscle emphasis. Studies confirm that the Precor 546 provides excellent aerobic conditioning, muscle involvement, and range of motion. Best of all, exercisers report lower rates of perceived exertion on the Precor EFX 546 than on traditional machines.

CYBEX Arc Elliptical Cross Trainer

62.5"H X 77"L X 36.75"W

PRODUCT DESCRIPTION **rental price upon inquiry*

Combining elements of a climber, hiker, and skier, the Cybex Arc Trainer produces gym-quality results in any environment, helping you get fit more efficiently than ever before. Research shows that the Cybex Arc Trainer burns more calories than any other cross trainer or elliptical cross trainer on the market. The machine accomplishes this through its Reverse Arc motion technology, which engages the muscles--the quads and glutes that demand the most energy from the body when they're called upon to work. That means a higher intensity and a bigger calorie burn, giving you a complete workout in the shortest time possible. The Cybex is also load-dependent, meaning that it scales the resistance level to the user's weight. This means that two users--one who weighs 250 pounds and the other 125 pounds--receive an equivalent workout when choosing the same program type.

Uses regular 110volt electricity and be plugged into any electrical outlet.

Life Fitness 95 Series Upright Bike

54"H X 48"L X 24"W

PRODUCT DESCRIPTION **rental price upon inquiry*

Life Fitness Lifecycle 95 Series exercise bikes are the flagship products of Life Fitness and still set the standard for the unparalleled cycling performance. Loaded with breakthrough technology, durable components, and features like ergonomically correct handlebars, Lifepulse heart rate sensors, and 11 Wide Ride pedal adjustments, the Life Fitness Lifecycle 95 continues the longest running fitness dynasty. As the most recognized cardio product in fitness facilities around the world, the Lifecycle exercise bike is a must have for every facility.
